

# Craft a Canoe

## What You Will Need

- Paper or cardstock
- Our canoe template (below)
- Scissors
- Markers, crayons, or colored pencils
- Yarn or string
- Hole-puncher (optional)

## What to Do

Print or trace our canoe template onto a piece of paper and cut it out. Use the hole-puncher to make holes. Thread the string or yarn through the holes to sew the two sides of the canoe together, and decorate with your own unique designs.
