# DINO DISCOVERY HUNT

Make your way through the *Third Planet* gallery and find the following animals. There were many kinds of animals living on Earth before, during, and after the time of the dinosaurs, so not all of the animals in *Third Planet* are dinos! Use the exhibit labels to help you figure out if they are dinosaurs and whether they were carnivores (meat-eaters), herbivores (plant-eaters), or omnivores (meat- and plant-eaters).
